

# Psychology Undergraduate Internship Placement – Paediatric Team

---

## Location of Placement

Royal Cornwall Hospital, Truro

## Accessibility:

Is a car required to undertake this placement?

No

## Description of Role:

Include key tasks and opportunities

This placement would provide an excellent source of experience for any student wishing to pursue clinical psychology training. Having a clinical psychology placement also provides a useful platform with which to apply for Assistant Psychologist positions upon graduation.

Your role in our team will include, but not be limited to;

- Observing clinical psychology assessments and therapy sessions
- Contribute to service development projects
- Assist in audits and the analysis of data
- Provide administrative support
- Scoring clinical questionnaires
- Discuss assessments and formulations with a clinical psychologist
- Opportunities to observe other Child and Adolescent Mental health Service (CAMHS) and hospital team members to gain a wider understanding of the different roles a clinical psychologist can undertake, and the wider role in the hospital
- Weekly 1:1 supervision will be provided by a clinical psychologist throughout your placement

## Preferred placement duration in weeks:

Intern can negotiate placement length based on university course requirements

## Placement days:

Intern can negotiate placement length based on university course requirements
